Subject:	Re: GSA assistance Comprehensive Energy Audit
Date:	Friday, May 13, 2016 7:47:38 PM

Phil, understood.

Ron - can you assist Phil?

The new lighting information is coming in from Perkins & Will which should help define the final analysis/ comparison of the old lighting (consumption, cost, maintenance cost) to the new lighting (consumption, cost, maintenance costs). This is coming upon us very quickly w**e could use some assistance in finalizing this SOW and with a IGCE.**

Attached is **"Release of Claims"** incorporated into the award for the change order for ceiling tiles in 1995.

The **Changes Clause** in the lease **33.552.270.21** address the Lessors recourse for adjustment, it says that within 30days after receipt of the change order the Lessor may submit a proposal for adjustment. That means the lessor can request an equitable adjustment to his annual operating costs for maintenance for any **award for lighting** that is not 2x4 or 2x2 fluorescent troffers. All of the new LED lights are not within the scope of the current lease contract
